Washington, DC 20590

Dear 23307 U.S. Department of Transportation:

Let them compete with the "good ole boys" in the transcon market and you shall see some much improve customer service in all area which is sorely needed.

Current airline customer service and amenties are simply horrible and the "influence" by another carrier with worldwide prestige will show the US flag carries to care about me the customer.

Sincerely,

Gary Garretson
